FROM THE PASTOR'S DESK - - -

We pray that our farmers get their fields planted soon and safely. Let us hope that there will be some rain left for later in the summer when we need it.

There are many people in Bridgeport affected by water in their basements including myself. Since there is mold growing in my basement, and I have some respiratory problems, I am spending the nights sleeping at the parish center until the problem is remedied. Since we have good coverage by Catholic Mutual, our insurance will cover all or most of the expense. Gary's Restoration will gut much of the basement, clean, and remove the mold. I will still work upstairs during the day. Earlier in May, the roofs of the Rectory and garage were totaled by hail. The roofs will be resingled. Some painting will also need to be done. Catholic Mutual will also cover this. Sometimes we complain about the cost of the property and liability insurance with Catholic Mutual of Omaha, but they are good in coming through for us in times of need.

Having celebrated Corpus Sunday last week, I would again offer some advice. Show respect to the Real Presence through your bow or genuflection in Church especially in front of the tabernacle. Dress appropriately for Mass. When receiving Communion, acknowledge your belief with your "Amen" when the priest or Eucharistic Minister says "The Body of Christ" and "The Blood of Christ". To receive Communion worthily, make sure you go to the Sacrament of Reconciliation if you have missed Sunday Mass or committed any other serious sins. Even though you might be on vacation, you still have the duty to attend Mass wherever you travel.

To help you out you might consider using the opportunity to receive Jesus by coming to Mass more frequently, such

as at a half hour weekday Mass during the summer.

Pope Francis will have an encyclical coming out this month on the environment, including a section on global warming. There is bound to be some controversy. Not everyone will agree with everything contained in the encyclical. However, this is not intended to be an infallible statement. If nothing else, it is a good reminder for the US and the world that God created everything directly or indirectly and that humankind has a duty to take care of the environment and to care for the well-being of the people of the world. Let's consider the document in that light.
